**IKEA & WHOLE FOODS MARKET** will anchor each end of Mid Market, creating a new wave of activity and mass appeal draw to the area. The new Whole Foods Market, largest on the west coast, will feature street level dining for the pre-theatre crowd grabbing a quick bite.

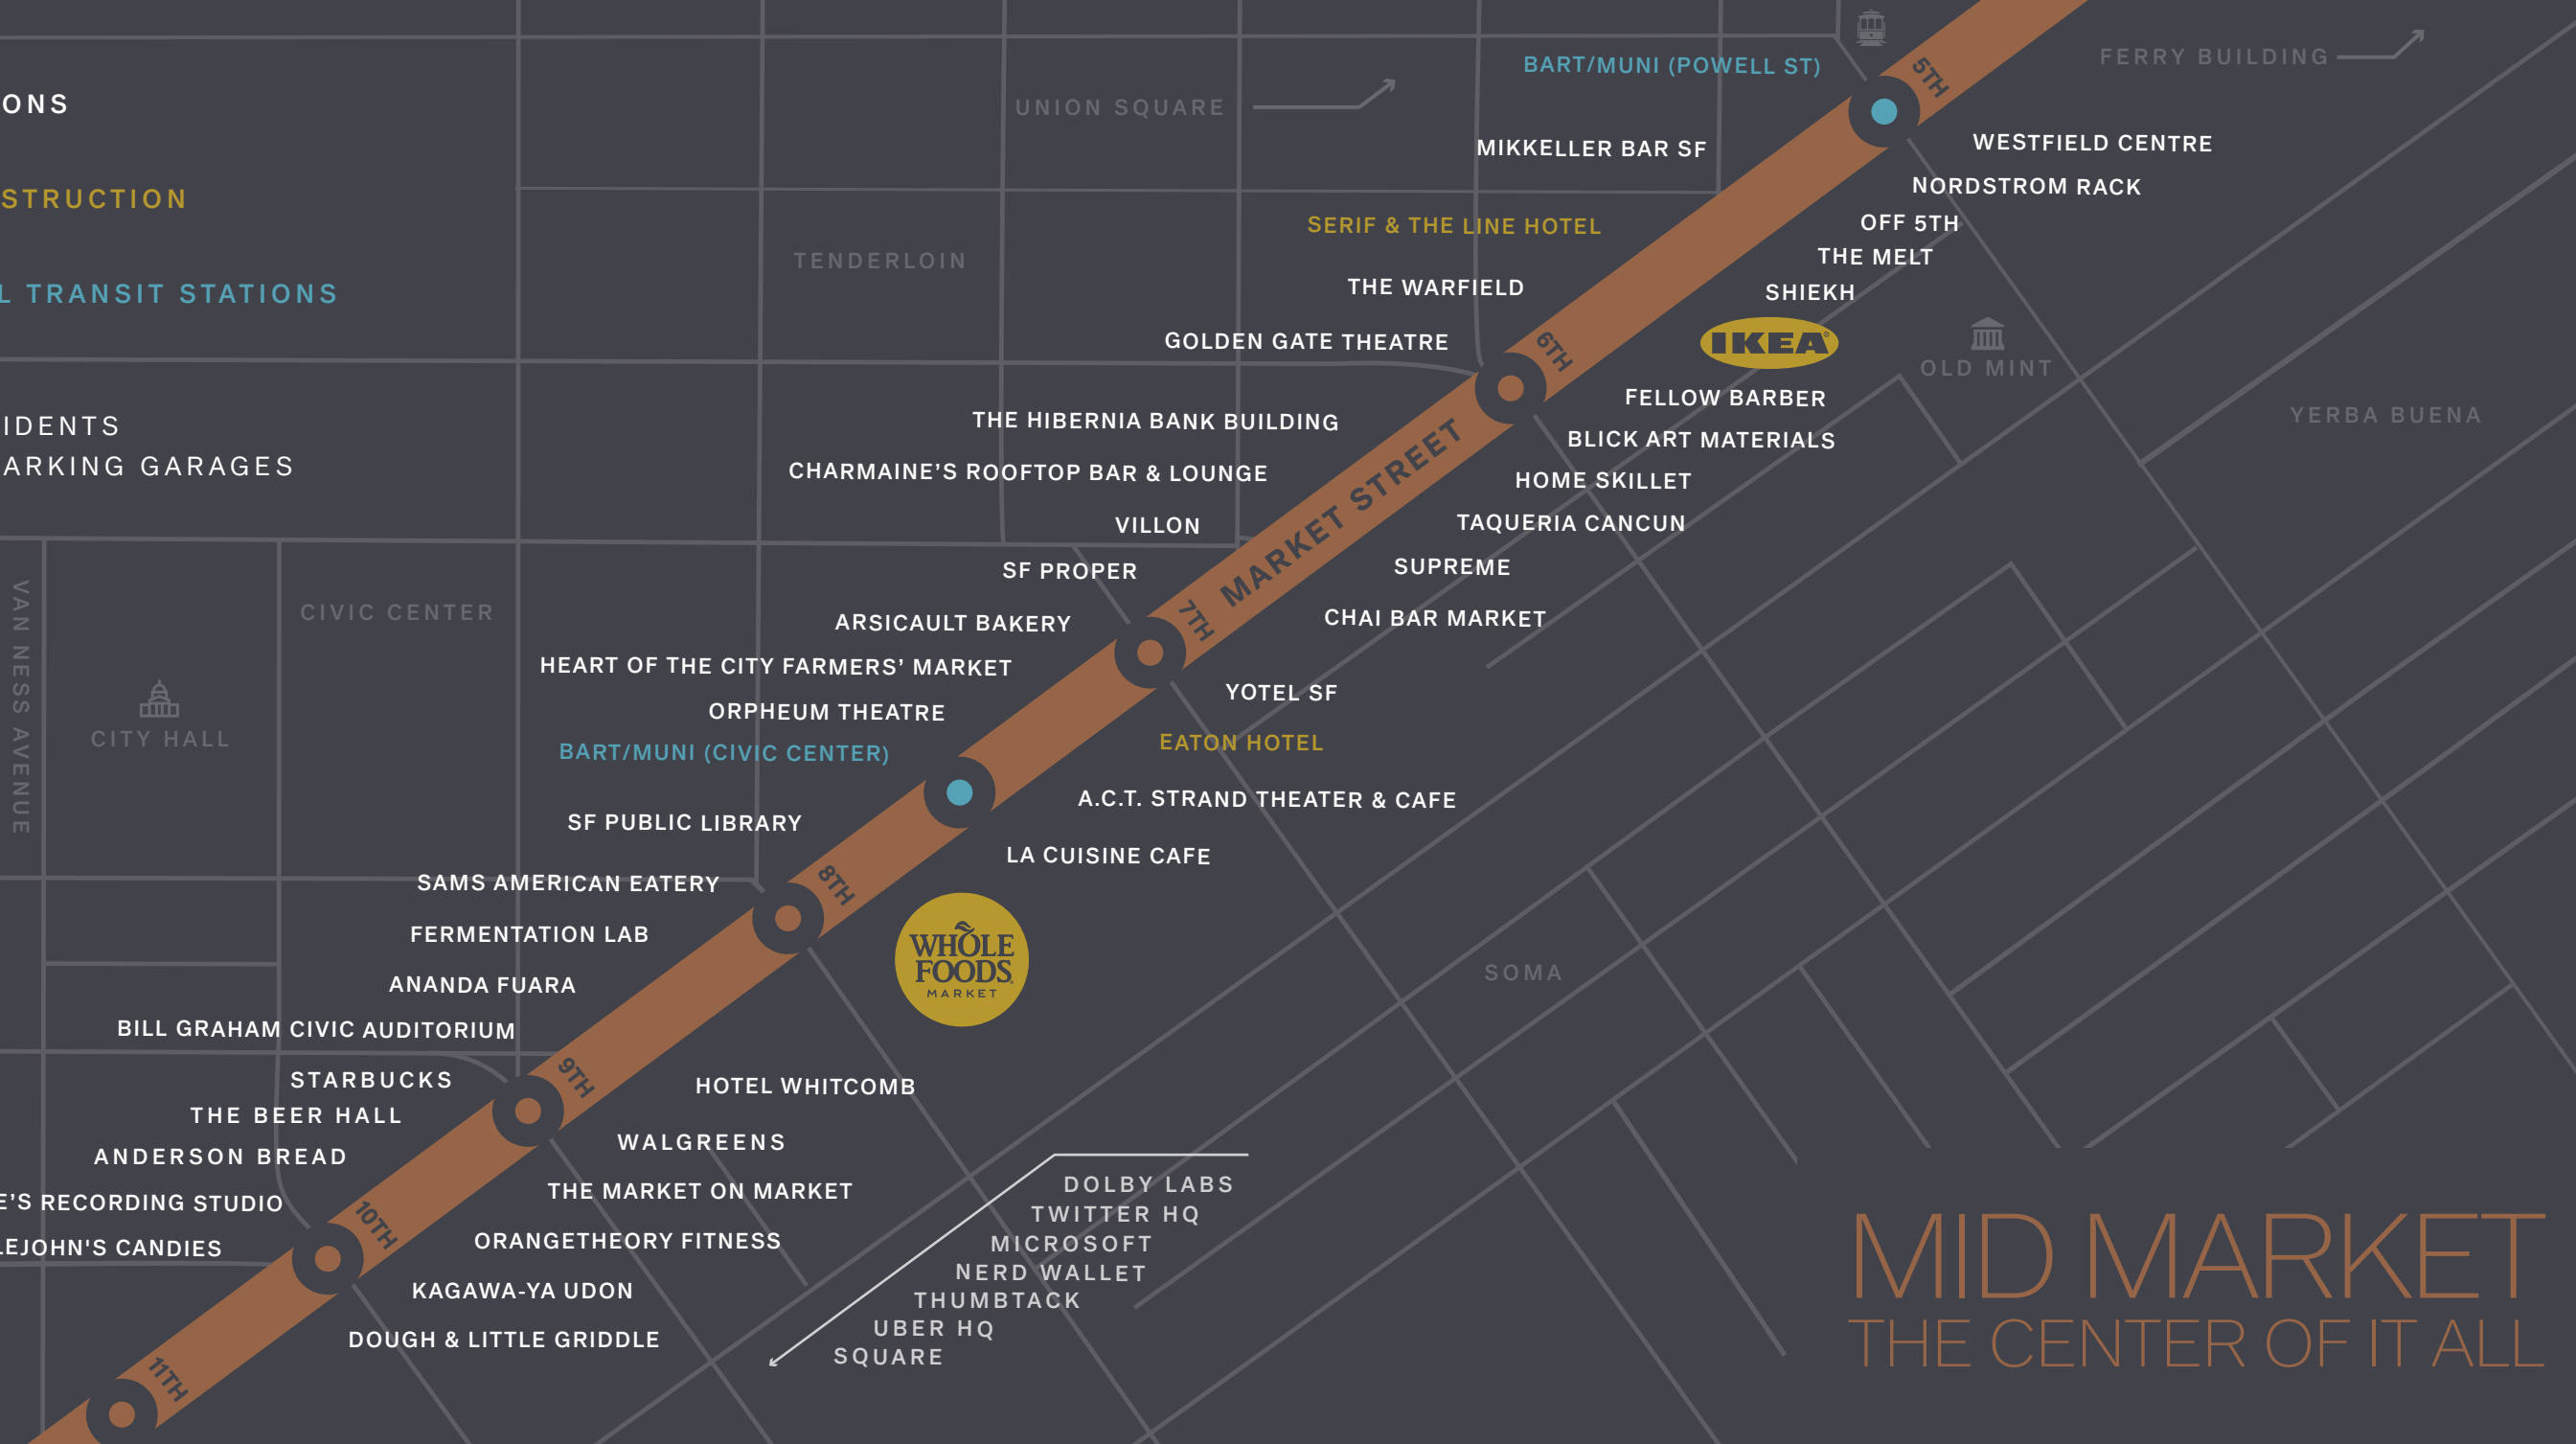

**CONVENIENT, EASY ACCESS** for the Bay Area is provided by the Civic Center and Powell Street BART stations, and drivers will enjoy the 26 nearby parking garages providing thousands of parking spaces. Flat and pedestrian friendly, Mid Market also features vintage streetcars on its F-Line that are popular with tourist and locals alike.

**ALL-DAY QUALITY FOOT TRAFFIC** by employees of nearby Twitter, Uber, Dolby, and Square headquarters going to Market Street shops and restaurants by day, is complimented by the evening pre- and post- theater and music venue audiences. And don't forget the locals living in the various new residential developments in the area.
